Terra et Aqua Contents number 1 - 58

Number 1 - 1972 (out of print)

Frijlinck, H.C.  Dredging projects in the developing countries
Oosterbaan, N.  Monaco creates breathing space
Campbell, I. & Pastoors, W.  Milford Haven - Now Britain’s major oil port

Number 2 - 1972 (out of print)

Nagorski, B.  Port planning in developing countries
Campbell, Ian M.  Antwerp, port at the cross-roads
Oosterbaan, N.  Natural gas adds new dimension to Algerian economy

Number 3 / 4 - 1973 (out of print)

James, E.H.  Opening address
Swansbourne, J.F.C.  Planning of projects
Sargent, J.H.  Investigations for dredging projects
Nagorski, B.  Financing of port projects
Van Dixhoorn, J.  Modern dredging in tidal rivers
Hovers, G.  Maintenance dredging in tidal rivers
Bijker, E.W.  Future developments in dredging on sea

Number 5 - 1973 (out of print)

Scholes, W.A.  Dredging Sydney’s second port
Anonymous  Employment opportunities through public works
Deltadienst RWS  The use of sand for the closing of tidal channels
Oosterbaan, N.  On the PIANC classification of soils to be dredged
Number 6 - 1974 (out of print)

Webb, R.J.  
IADC  
Oosterbaan, N.  
Agar, M. & McDowell, D.M.  
Elliot, D.S.  

Maintenance dredging: an operations research approach  
The second IADC dredging day  
Eider dam closes the weakest spot of German North Sea coast  
Dredging the sea approaches to the port of Liverpool  
The role of the World Bank in port development projects

Number 7 - (out of print)

Hilling, D.  
Willems of Brilman-Ellis, R.  
Oosterbaan, N.  

Ports of development in West Africa  
Dredging: economics and project control  
An introductory bibliography on dredging and the environment

Number 8 / 9 - 1975 (out of print)

Lespine, E.  
Webb, R.J. & Coleman, M.J.  
Mostertman, L.J.  
Cressard, A.  
de Nekker, J. & In’t Veld, J.K.  

Employment of trailing suction hopper dredgers in the Gironde  
Operations research in dredging  
Hydraulic engineering and the human environment  
The influence of sand and gravel-winning on the marine environment  
Dredged Rotterdam harbour mud: its qualities and use as soil

Number 10 - 1975 (out of print)

Linssen, J.G.Th. & Oosterbaan, N.  
Bruun, P.  
Nordemann, H.H.J.  
Sauzay, G.  

Dredging equipment: its past performance and future development  
Dredging and reclaiming an exclusive development  
Calculating for profit  
Appraisal of radio-active tracer techniques in dredging operations
Number 11 - 1976 (out of print)

Oosterbaan, N.
Leimdörfer, P.
Abbot, M.B.
Venugopal, C.G.
Ottmann, F.G. & Lahuec, G.

Bridging the information gap
On the stability of earth deposits
Mathematical models in hydraulics and coastal engineering
Channel measurements: a pilot’s view
Dredging and geology

Number 12 / 13 - 1977 (out of print)

Reinalda, R.
Stonham, P.E.
Kienitz, A.
Linssen, J.G.Th.
Webb, R.J.
Rossard, M.
Clutterbuck, P.G.
Goss, R.O.

The design of harbours in tidal areas
Cost-benefit of improving port entrance channels
Economic effectiveness of investment in port approach channels
Direct labour or contract dredging?
Transient considerations in maintenance dredging
Arzew becomes the largest methane port in the world
Tender documents and contract supervision - the contractor’s point of view
Capital dredging and port charges

Number 14 - 1977 (out of print)

Svasek, J.N. & de Nekker, J.
Linssen, J.G. Th. & Oosterbaan, N.
Nagorski, B.
Thorpe, W.R.

Recent developments in harbour building at sea
Operational aspects of dredging fleets
Port congestion
Tender documents and contract supervision

Number 15 / 16 - 1978 (out of print)

Roberst, F.B.
Oosterbaan, N.
Linssen, J.G.Th.

Dredging and port construction in the Middle East
International dredging contract conditions
Economics and port investments
Number 17 - 1979 (out of print)

Andreae, J.F.R. & James, E.H.  
De Koning, J.  
Stuvel, H.J.  
Zwemmer, D. & van ‘t Hoff, J.

Number 18 - 1979 (out of print)

van Oostrum, W.H.A.  
Barras, C.B.  
Willems of Brilman, R.

Number 19 - 1980 (out of print)

Harris, E.G.  
Bruun, P.  
Roelofsz, F.  
van Oostrum, W.H.A.

Number 20 - 1980 (out of print)

Mathew, A.  
Maquet, J.F.  
Vigueras Gonzales, M.

Number 21 - 1981 (out of print)

Guérin, P. & Tessier, R.  
Sukroongreung, Chalit  
Brossard, C.

The contractor’s response to the complexity of present-day projects  
Transfer of dredging technology between disciplines and countries  
7,500,000 cubic metres of sand for Zoetermeer  
The construction of Saldanha Bay Harbour  
Operations research and dredging  
The phenomenon of ship squat  
The development of human resources in and by the dredging industry  
Ecological dredging of inland waters  
Siltation in Estuaries  
The frame contract as a means of long-term port development  
Maintenance dredging in fluid mud areas  
Technological requirements for port development in India  
Thirty million cubic metres moved for the port of Le Havre-Antifer  
Dredging appliances in the Codex J. Torriani, National Library of Spain  
Port of Fos: progress of dredging, 1975 - 1980  
Current dredging problems in Thailand  
Organisation and surveillance of a maritime dredging contract
Number 22 – 1982 (out of print)

Moor, R.
van den Kieboom, J.P.C.
Linssen, J.G.Th.

Number 23 / 24 - 1982 (out of print)

Linssen, J.G.Th.
McDowell, D.M. & O’Connor, B.A.
van den Kieboom, J.P.C.
Bijker, E.W.
Oosterbaan, N. & Pyle, Th.E.

Number 25 – 1983 (out of print)

Ueda, Hirosha; Slotta, L.S. & West, T.
Hahlbrock, U.
Volbeda, J.H.
IAPH

Number 26 - 1983 (out of print)

Fletcher, L.
Riddell, J.F.
De Vlieger, H.

Dredging problems at the port of Salaverry, Peru
Private and public dredging sectors in the developing world
Economic aspects of dredging

The tender system for dredging contracts
Numerical analysis of sediment transport in coastal engineering problems
Public and private dredging: further comparisons
Physical models for coastal morphology and harbour problems
Bibliography on environmental aspects of dredging and filling operations

Strategic port development
Bucketwheel excavators in the marine environment
The price of accuracy in trench dredging
Ports and dredging in the developing countries

A fair price for dredging
Dredging: the need for civil engineering education
Implications of the London Dumping Convention for a dredging contractor

PIANC

Classification of soils and rocks to be dredged

IADC

van der Weijde, R.W.
Pequegnat, W.E.
Sundaram, K.A.
Grover, D.H.

IADC, aims and activities
Dredging is necessary - more dredging than is necessary isn’t
Toward special LDC guidelines for dredged materials
Capital dredging in Tuticorin port: progress and problems
The split hull dredge comes of age

Kennedy, G.
Flament, P.G.
Goudsmit, J.J.

Privatisation of maintenance dredging: expectations and experience
Dredge tower for depths up to 100 metres
Standard contract conditions, characteristics, pitfalls and possible amendments with special regard to dredging

Lethbridge, J.R.
Oosterbaan, N.
Hamburg Port Authority
Viagrié, André
IAPH

Recent developments in World Bank lending for port projects
Working with nature on the Slufter disposal site
How to dispose of Hamburg’s dredged materials
The astonishing rise of Southeast Asia in world-wide sea trade
Dredging for Development (2nd revised edition)

Murden, W.R.
Weihao, Gu
Pequegnat, W.E.
Glaiber, P.H.

An overview of the beneficial uses of dredged material
A preliminary study of the effect of typhoons on the siltation in the Yangtze estuary
Relationship between dredged material and toxicity
Multi-annual maintenance dredging program for the Upper Rio de la Plata Channel Complex
Number 35 - 1987 (out of print)

**De Vlieger, H. & De Cloedt, J.**  
Navitracker: a giant step forward in tactics and economics of maintenance dredging

**Murden, W.R.**  
The state of dredging in the USA, now and in the near future

**De Meyer, C.P. & Malherbe, B.**  
Optimisation of maintenance dredging operations in maritime and estuarine areas

Number 36 - 1988 (out of print)

**Groot, J. Marco,**  
Criteria for the backfilling of excavated trenches for pipelines, transmission lines and immersed tunnels

**Goudsmit, J.J.**  
A first impression of the 4th edition of the FIDIC Conditions of Contract

**IADC**  
IADC, aims and activities

**van Someren, G.J. & Oosterbaan, N.**  
Cleaning up the North Lake in Tunisia

**Pequegnat, Willis E.**  
Expansion of the LDC Annexes

**Finney, N.H.**  
Maintenance dredging and disposal of dredged material at UK ports

Number 37 - 1988 (out of print)

**Kraaijeveld van Hemert, J.**  
The function of dredging in the resource industries

**Meyvis, L. & Marian, J.**  
Low cost tidal inlet and estuary maintenance dredging

**Oosterbaan, N. & van Someren, G.J.**  
The development of Hong Kong

**d’Angremond, K.; de Jong, A.J. & van Oorschot**  
Beach replenishment-design elements and implementation

Number 38 - 1988 (out of print)

**Blokland, T.**  
Determination of dredging-induced turbidity

**Landin, M.C.**  
Dredged material: a recognised resource

**Estourgie, A.L.P.**  
Theory and practice of water injection dredging
Number 39 - 1989 (out of print)

Muir, W.C.
Paul, R.A.
Riddell, J.F.; Fleming, G. & Smith, P.G.
Bijker, E.W.
Sanchez-Cuadros, E.

The US EPA’s view on the use of dredged material
Overburden dredging as an economical stripping methods
The use of dredged material as a top soil
Protection of sandy coasts
Sedimentation studies of channel improvement at the port of Guayaquil

Number 40 – 1989 (out of print)

Hensen, U.
Murden, W.R.
Vantorre, M. & Coen, I.
Veltman, M.; Visser, F. & Fresco, J.

Disposal of Hamburg’s contaminated dredged material
The meeting of the Twin
On sinkage and trim of vessels navigating above a mud layer
Management of contaminated sediments by insulation and recycling

Number 41 – 1989 (out of print)

Miedema, S.A.
Rokosch, W.D.
von Oostrum, R.W. & van Rijn, M.

The cutting forces in saturated sand of a seagoing cutter suction dredger
Measuring dry matter in trailing hopper dredgers
Auto-mated monitoring of dredging projects

Number 42 - 1990 (out of print)

Smals, M.R.
Pennekemp, J.G.S. & Quaak, M.P.
Hoogerwerf, F.W.
Goudsmit, J.J.

Materials for the building and road construction industries
Impact on the environment of turbidity caused by dredging
Dredging works for the Sydney Harbour Tunnel
FIDIC conditions of contract (4th.Ed.) - a users’Guide

| Navigation in muddy areas: establishing the navigable depth in the port of Zeebrugge  |
| The planning of maintenance dredging work  |
| Third harbour tunnel, Boston: mechanical dredge sediment resuspension analysis  |
Innovative dredging: techniques developed during the clean-up of Geulhaven in Rotterdam

Soil investigation

Mapping bathymetry and suspended sediment using satellite imagery

Pre-sweeping and trenching for the installation of the zeepipe gasline on the Dutch Continental shelf of the North Sea

The closing process of Clamshell dredges in water-saturated sand

North Lake of Tunis and its shores: restoration and development

Environment Canada demonstrations: remediation technologies for the removal of contaminated sediment in the Great Lakes

WODA’s role at the London dumping convention

Dredging: a clean up technique for contaminated aquatic sediments

International seminar on dredging and reclamation

A statistical approach to maximising sidecasting dredging productivity

Dredging and backfilling for the zeepipe pipelaying project on the Belgian continental shelf of the North Sea, Part I

Are dredges effective tools for oil spill recovery operations?

Dredging and backfilling for the zeepipe pipelaying project on the Belgian continental shelf of the North Sea, Part II

Low cost dredging techniques at the Port of Cochin, India

The Liefenshoek Tunnel: an important river crossing
Number 53 - 1993

Csiti, A.
de Koning, J.

Land disposal of contaminated dredged material and related issues: state of the art review
Where the dredging industry and the university meet

Number 54 - 1994

Vlasblom, W.J.
Ooms, K.; Woods, N. & Whiteside, P.
Moret, W.
Mohammed, A.R.

European dredgers build New Hong Kong Airport
Marine sand dredging: key to the development of Hong Kong
Investment in the dredging industry
A low cost dredging device: a laboratory and field study

Number 55 - 1994 (out of print)

Verhoef, P. & Deketh, J.R.
ten Veen, D.J. & van Woerkom, J.J.
Kraneveld, M.

Rock characterisation for dredging purposes
Serving the dredging industry: marine surveying, assessing and valuing
Laying the basis for Storebælt East Bridge, Denmark

Number 56 - 1994

Veldhuis, A.
IADC
Murray, R.J.; Robinson, D.A. & Soward, C.L.
de Silva, M.S. & Thomas, B.R.

The bulking of sand: determining the relative density
Programme to draft a dredging contract, version 2.0, an update
Southern gold coast beach nourishment project: implementation, results, effectiveness
UK dredged material resource in relation to beneficial use: a strategic framework for its assessment

Number 57 - 1994

Mars, S. & Vriesendorp, R.J.
Brakel, J.
Evans, N.C.
de Kok, M.B.A.M.

Seismic profiling and processing system
Construction of the sill: Maeslant Kering Storm-Surge Barrier
Effects of dredging and dumping on the marine environment of Hong Kong
Hong Kong’s new container terminal eight
IADC
Krishnamohan, R.
International seminar on dredging and reclamation
Closure of bauxite residue coastal disposal sites with dredged material: a feasibility study
The most promising student awards 1994
What's in a name?
Dispersion on the marine environment of turbidity generated of overflow
DEBBY: dredging and environmental bibliography
Registered plant 1994
